Rain is here, malaria, dengue, new headache for health department

EXPRESS NEWS SERVICE @ Bengaluru

IN the wake of incessant rain and floods in several parts of the state, the health department is on high alert and has come up an action plan with measures to check outbreak of vector and water-borne diseases, Health Minister Dr K Sudhakar said.

He said that rain and flood-like situa-

tion in several parts of the state is leading to increased mosquito-borne diseases and a surge in malaria, dengue, chikungunya, Japanese encephalitis, lymphatic filariasis, and also water-borne diseases. Sudhakar said he held a meeting with senior officials and is personally monitoring the situation, seeking updates from district administrations on a daily basis.

CONTINUED FROM PAGE 1

“WE may have to think about fining people who do not wear masks. Before it gets out of hand, we need to take all precautionary measures. It is in the discussion stage and we will take a final call after consulting Chief Minister Basavaraj Bommai,” he added.

With active Covid-19 cases in Mumbai (3,318) and Delhi (1,960) reducing, Bengaluru now has the highest number of active cases among metropolitan cities in India at 6,158 cases. However, the number of clusters in Bengaluru have reduced to

12, including 10 in Mahadevapura zone and one each in West and Yelahanka zones. All these clusters are in apartments wherein there are a large number of IT employees. These clusters were detected when they underwent Covid tests for international travel.

With this in the background, Sudhakar pointed out that at present when someone is infected, as symptoms are not severe and no hospitalisation is required, people tend to take it casually. Besides, with the case fatality rate being ‘0’, people have begun ignoring precautions as the fear of getting infected is no longer playing a role

on people’s mind to force them to take to Covid appropriate behaviour.

“We do not know much about post-Covid developments as it is just 2.5 years old. We do not know what the post-Covid effects are. They vary from person to person. But we need to be watchful. We should be taking all precautionary measures,” he said.

When asked if the increase in cases indicated the advent of the fourth wave, the minister denied, saying this cannot be called a ‘wave’.

“Every three to four months, cases keep fluctuating. We need to wait and watch,” he added.

‘WAITING FOR KIDS’ VACCINATION’

Union Health Minister Mansukh Mandaviya said all decisions taken by the government on vaccination are based on experts’ recommendations. So far, they have not advised any vaccination for children below 12 years. The minister said precautionary doses which were announced for free for all above 18 years on Wednesday is expected to improve immunity of this large population. This will help fight Covid. Regarding vaccine supply, he said there are six companies in India manufacturing Covid vaccines. “The vaccine manufacturing capacity is now enhanced to 20 crore doses. There are a number of vaccines, but we are now also sending them to to more than 100 countries,” he said.

ACTION PLAN

- District administrations instructed to ensure preparedness to respond to outbreak of diseases, and ensure treatment and management of cases at all healthcare facilities
- Instructions given to set up a control room for close monitoring and coordination at all levels
- Officers directed to form rapid response teams at the district and taluk level, and be ready with the requisite equipment and mobility support, including diagnostic kits, drugs, insecticide, larvicide, to respond to any emerging health situation
- Officials instructed to have village or ward-level micro-plan ready for flood-prone areas, to implement necessary control measures
- Medical officers at PHCs instructed to increase or strengthen disease-specific surveillance activities, analyse data at micro-level to detect upsurge in vector-borne diseases, so containment measures can be taken
- District and taluk health officers directed to visit areas at risk to ensure surveillance activities and availability of necessary logistics. They have been asked to monitor entomological indices or parameters, predict impending outbreaks, so that preventive measures can be implemented in time
- Officers asked to hold interdepartmental coordination meetings, to seek necessary cooperation on their roles during flood or outbreak situations

CCI PUSHES FOR HUBBALLI-ANKOLA RAILWAY LINE

NEWS SERVICE @ Hubballi

Katak Chamber of Commerce Industry has urged the government to remove all legal impediments to implementing the Hubballi-Ankola railway line. The Chamber has made this appeal to the government following a directive of the Karnataka High Court asking the National Wildlife Board (NWB) to take a decision on the issue of forests and wildlife clearance for the proposed railway line. The Chamber has always been in the forefront of the fight for this railway line for the last four decades. It has put pressure on the successive governments both at the State and Union levels to pursue this project. It has made a fresh attempt after the recent and recent remark of the Minister Basavaraj Bommai. In March, the HC directed the government to decide on the issue within 12 weeks. The Board will be based on the report to be submitted by the panel that has been con-

stituted to study the impact of the railway line on forest and wildlife.

There is opposition to the project from green activists as they argue that the railway line passes via Kali Tiger Reserve that is a part of the eco-sensitive Western Ghats. They also claim that nearly 600 hectares of forest land and over two lakh trees will have to be cleared to make way for the railway line.

CM Bommai, recently in Hubballi, had said that work on the Hubballi-Ankola railway line will commence this year itself by getting all environment clearances for the project. He had also spoken about port connectivity through this new line.

"The Hubballi-Ankola Railway line not only connects Uttara Kanna with the Northern parts of Karnataka but also give access to the coastal area to boost export and tourism," said KCCI secretary Praveen Agadi. "The new line will help the industrial and economic development of the region," he said.

The new line will help the industrial and economic development of the region. So the government should make all-round efforts for the implementation of this project - KCCI secretary Praveen Agadi
