Management Discussion and Analysis

A) INDUSTRY STRUCTURE AND DEVELOPMENT

In FY 2025, India added 23.8 GW of solar capacity. Solar capacity additions increased YoY by 59% compared to 15 GW installed in FY 2024. The total installed solar capacity in India as of FY 2025 is at 106 GW. Of this Ground mounted solar capacity accounts for 86% installed base. Grid connected rooftop capacity now stands at 14% of the installed capacity.

Source: MNRE

As of March 2025, renewable energy (including large hydro) forms a significant and increasing share of India’s energy mix, accounting for 46.3% of the total installed capacity at 220 GW out of 475 GW. Within renewable energy, solar power leads with 106 GW, comprising 48% of the RE portfolio, followed by wind at 50 GW (23%). This strong push toward renewables reflects India’s strategic shift toward cleaner sources of energy to enhance energy security, meet its climate goals, and decarbonise its growing economy. Solar and wind are expected to drive the next wave of capacity additions, supported by falling costs, favourable policies and strong investor interest.

India’s installed electricity generation capacity has grown steadily from 305 GW in FY 2016 to 475 GW in FY 2025, driven by continued expansion across conventional and renewable energy sources. While coal still form the largest share at 222 GW (46.7%), the most significant trend has been the acceleration of solar capacity. It has grown at an increasing rate from 7 GW in FY 2016 to 106 GW in FY 2025.

i) Open access projects installation has slowed down

Due to regulatory changes in key states like Maharashtra, lack of transmission infrastructure, and delays in the connectivity approval process, the commissioning of solar open access projects has slowed down.

India added 1.1 GW of solar open access capacity in Q1 of CY 25, down from 47% YoY compared to nearly 2 GW installed in Q1 of CY 24. As of March 2025, the cumulative installed solar open access capacity in India was 21.5 GW. Maharashtra, Tamil Nadu and Karnataka account for majority of the new additional capacity.

ii) Rooftop projects have witnessed exponential growth

Driven by PM Suryaghar: Muft Bijli Yojana, India added 1.2 GW of rooftop solar capacity in Q1 of 2025, a massive jump of 232% YoY compared to 366.5 MW installed in Q1 of 2024. The capacity added during this quarter was the second

highest quarterly installation to date. The residential segment accounted for nearly 78% of installation in this quarter. India's cumulative rooftop solar capacity has now reached 14.9 GW.

iii) Maharashtra has emerged as a significant player in the feeder level solarisation segment

Maharashtra has taken a leading role in implementation of PM-KUSUM, particularly under Component C which focuses on the solarisation of existing grid-connected pumps. The states efforts are further amplified through initiatives like the Mukhyamantri Saur Krishi Vahini Yojana (MSKVY) 2.0, which aims to address the growing energy demand in the agricultural sector, currently estimated at 14,000 MW.

B) OPPORTUNITIES AND THREATS

i) Opportunities:

Over the next 3-4 years, we believe that the solar power capacity addition, especially under KUSUM scheme and open access, will accelerate. This is because of two reasons- 1) electricity demand is expected to grow at significant pace and 2) government's push for rural improving electricity supply to farmers. We estimate that India will need to add another 100 GW of renewable energy capacity in next five years with solar capacity addition being the main contributor.

ii) Challenges and Threats:

While the opportunity is large, there are various challenges that can derail the potential growth story:

a) Land availability is a major constraint for ground mounted solar

One of the biggest challenges in the solar sector is the availability of land. Solar PV plants require a large amount of contiguous land to set up. However, rapid urbanization, fragmented ownership, challenges in establishing titles and social issues make land aggregation one of the biggest impediment and risk to the growth of the sector.

b) Regulatory and infrastructure issues impede growth of open access projects

- Maharashtra's Energy Banking rules could limit the solar capacity additions. The recent MERC tariff order requires that consumption and generation occur within the same time slot. This will limit operational flexibility for C&I customers with diverse load patterns and could potentially affect the economic returns of standalone solar projects, particularly when surplus generation during the day does not align with consumption needs.
- Availability of timely transmission connectivity is another challenge. To optimise costs, utilisation levels and losses associated with the transmission system, robust transmission planning is crucial. Various stakeholders at appropriate levels have raised concerns about the connectivity for renewable projects. In response, nodal agencies (PGCIL and SECI) have planned various schemes to reduce grid congestion and enhance connectivity.

c) Limited availability of domestically manufactured solar cells is impacting growth of rooftop and KUSUM C projects

- The Indian government has mandated the use of domestically manufactured solar PV cells and modules in various schemes, including PM-KUSUM and rooftop solar programs.
- While there's a push for local manufacturing, India's solar cell production capacity lags behind the demand, especially for projects requiring domestic content requirements (DCR)
- This disparity leads to higher costs for DCR modules and potential shortages, hindering the expansion of these crucial renewable energy initiatives

C) SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The details of project implementation and business development is given in the Directors' Report under the head Projects. The segment-wise performance is as under –

Standalone			Consolidated		
	(Amount in Mn)			(Amount in Mn)

D) OUTLOOK

We have recently entered into another power purchase agreement with MSEDCL (govt. of Maharashtra distribution utility) to build, own and operate 44 MW AC solar project. The projects are being installed under the KUSUM C scheme. The project needs to be commissioned by July 2026. In addition, we are currently developing renewable energy parks to cater to growing demand of open access customers. We believe that the long-term outlook for your Company is positive

E) RISKS AND CONCERNS

We believe the following are the key risks to the Company's business:

Concentration of tenders in short period: If the procurement tenders are concentrated in a short period, we will not be able to participate in all tenders. Further, it will also increase the working capital requirement of the business.

Delay in payment by government agencies: If the payment from government agencies is delayed, it will reduce our ability to execute. Further, it will also impact the profitability of the business.

Increasing competition: We believe that increasing competition might result in unviable bids thereby reducing our ability to leverage on the potential opportunity size.

Default by off-takers: As we are also operating several assets under long term power purchase agreements, any default by off-takers will result in a significant loss.

Lack of water for cleaning: Some of the projects are located in drought areas. As a result, there is a risk that in some years we might not be able to regularly clean the modules thereby reducing the potential generation.

Dependence on weather for generation: The projects will always be exposed to this risk. Any significant changes in weather patterns can result in significant loss of generation.

Lack of financing: The Company's ability to grow business is also dependent to timely availability of inexpensive finance.

The Company has constituted Risks Management Committee, to monitor and review risk. Risk Management Policy has been framed and the Company is committed to managing the risk in accordance with the process set out in the policy to benefit the Company.

F) INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The compliance certification from Whole-Time Director and the Chief Financial Officer provided in Annual Report confirms the adequacy of our internal control system and procedure. The Audit Committee in every meeting evaluates internal financial controls and risk management systems.

G) DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) and comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.

To the Members of

RAVINDRA ENERGY LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Ind AS financial statements of **RAVINDRA ENERGY LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2025, and the Statement of Profit and Loss, including Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended and Notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the Standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

- There are no key audit matters to be reported.

Emphasis of Matter:

- We draw Attention to Point no. 5 of Notes to Financial Results in relation to the amounts included in Exceptional items of ₹145.33 Mn, being the Loans and Investments written off on account of the Voluntary liquidation of the Foreign subsidiary, Renuka Energy Resource Holdings (FZE).
- We draw Attention to Point no.6 of Notes to Financial Results in relation to the granting of Employee Stock Options (ESOPs) to the eligible employees under (expand 'REESOS 2022'), the vesting period of the options and Accounting of the required entries in compliance with Ind AS 102, Share Based Payments.

Our opinion on the financial statements is not modified with respect to the above matters.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report but does not include the Standalone Ind AS financial statements and our auditor's report thereon. Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the

accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process..

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also::

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a

going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation. .

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication..

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit

opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Accounts forming part of the Financial Statements For the year ended March 31, 2025

Note - 1 -

A. CORPORATE INFORMATION

Ravindra Energy Limited ("the Company") is a public company incorporated and domiciled in India. The Company's shares are listed on the Bombay Stock Exchange Limited. The registered office of the company is located at BC 105, Havelock Road, Camp, Belagavi - 590001.

The Company is principally engaged in Selling Solar Pumps, Setting up of Solar Generation Power Plant (Ground Mount & Rooftop) & Generation and Sale of Power.

B. MATERIAL ACCOUNTING POLICIES

i. Basis of Preparation:

The accompanying financial statements have been presented for the year ended March 31, 2025 along with comparative information for the year ended March 31, 2024. These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) on going concern basis under the historical cost convention on the accrual basis of accounting and the relevant provisions prescribed in the Companies Act 2013, besides the pronouncements/guidelines of the Institute of Chartered Accountants of India and of the Securities and Exchange Board of India. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. The accounting policies have been consistently applied by the Company except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

ii. Use of estimates:

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which such changes are made.

iii. Property, plant and equipment

Property, plant and equipment (Tangible and Intangible) are stated at cost less accumulated depreciation. Cost comprises the purchase price and any cost attributable to bringing the asset to the location and condition necessary for its intended use. The Company carried out fair valuation of Freehold land, buildings and plant and machinery (PPE). However, it was determined that fair value does not differ materially from the carrying value of assets. Accordingly, the Company has not revalued the PPE as at March 31, 2025.

Capital work in progress is stated at cost.

In case of revaluation, surplus is recorded in OCI and credited to the asset revaluation reserve in equity. However, to the extent that it reverses a revaluation deficit of the same asset previously recognised in statement of profit or loss, the increase is recognised in statement of profit and loss. A revaluation deficit is recognised in the statement of profit and loss, except to the extent that it offsets an existing surplus on the same asset recognised in the asset revaluation reserve.

An annual transfer from the asset revaluation reserve to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred directly to retained earnings.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Category	Useful life
Buildings	5 - 60 Years
Plant and Equipment's	5-40 Years
Furniture and Fixtures	1-10 Years
Vehicles	7-8 Years
Office Equipment's	1-10 Years

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

iv. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

v. Depreciation & Amortization:

Depreciation on PPE bought/sold during the year is charged on straight line method as per the useful life in Schedule II of Companies Act, 2013 depending upon the financial year in which the assets are installed/sold.

With respect to the plant and machinery generating renewable energy, the useful life of the asset is determined in accordance with KEREC/CERC guidelines.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern.

vi. Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments. Current investments are carried at lower of cost or fair value / market value determined on an individual investment basis. Non-current investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. Profit/loss on sale of investments is computed with reference to their average cost.

vii. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost

of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

viii. Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- a. Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on first in, first out basis.
- b. Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

ix. Foreign currency transactions:

Functional Currency

The functional currency of the Company is the Indian rupee. These financial statements presented in Indian rupees (rounded off to millions, one million equals ten lakhs).

Initial Recognition:

Transactions in foreign currencies are initially recorded by the Company at functional currency rates at the date of the transaction.

Conversion:

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in Other Comprehensive Income (OCI) or profit or loss are also recognised in OCI or profit or loss, respectively).

**Exchange Differences:**

Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those at which they were initially recorded during the period or reported in previous financial statements, are recognized as income or as expenses in the period in which they arise.

x. Revenue recognition

Ind AS 115 supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

Ind AS 115 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Company adopted Ind AS 115 using the modified retrospective method of adoption with the date of initial application of 1 April 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Company elected to apply the standard to all contracts as at 1 April 2018.

The cumulative effect of initially applying Ind AS 115 is recognized at the date of initial application as an adjustment to the opening balance of retained earnings for the year ended March 31, 2019.

xi. Income Tax

Tax expenses comprise both current and deferred taxes.

The current tax is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss due to the effect of items of income or expense that are taxable or deductible in other years and items that are not taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity.

Deferred tax:

Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognized on temporary differences between the

carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is reasonably certain that taxable profits will be available against which those deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilized. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

xii. Provisions and Contingent liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

xiii. Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense in the statement of profit and loss.

Provisions for liabilities in respect of leave encashment benefits and gratuity are made based on actuarial valuation made by an independent actuary as on the balance sheet date. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Re-measurements are not reclassified to profit or loss in subsequent periods.

xiv. Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average numbers of equity shares outstanding during the period are adjusted for events of bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

xv. Impairment of assets

As at each Balance Sheet date, the carrying amount of assets is tested for impairment so as to determine the provision for impairment loss, if any, required or the reversal, if any, required of impairment loss recognized in previous periods. Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

xvi. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease,

together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

xvii. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- a. Expected to be realised or intended to be sold or consumed in normal operating cycle

Transition to Ind AS 116 - Leases - effective April 1, 2019, the Company has adopted Ind AS 116, 'Leases'. Ind AS 116 introduces a single lease accounting model and requires a lessee to recognise Right-of-Use assets and lease liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The company has used the 'modified retrospective approach' from transition from previous standard -Ind AS 17, and consecutively comparatives for previous periods have been retrospectively adjusted. On transition, the company records the lease liability at the present value of future lease payments discounted using the incremental borrowing rate and has also chosen the practical expedient provided in the standard to measure the right-of-use at the same value as the lease liability. Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the Ind AS financial statements of such entities included in the Consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the Consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical

requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure ‘A’ to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls over financial reporting of **Ravindra Energy Limited** (“the Holding Company”) and its subsidiary companies which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and

maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company and its subsidiaries incorporated in India, internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting

includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the the Institute of Chartered Accountants of India".

b. Basis of Consolidation:

The financial statements of the Company and its subsidiaries have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenditures after eliminating intra group balances and transactions to the extent identified and reconciled in accordance with Indian Accounting Standard (Ind AS) 110 - Consolidated Financial Statements.

The difference between the cost of investment in the subsidiaries, over the net assets at the time of acquisition of shares in the subsidiaries and associates are recognised in the financial statements as Goodwill or Capital Reserve, as the case may be.

Investments in associate companies have been accounted under the equity method as per Ind AS 28 - "Investments in Associates and Joint Ventures".

Under the equity method of accounting, the investment is initially recorded at cost, identifying any goodwill / capital reserve arising at the time of acquisition. The carrying amount of investment is adjusted thereafter for post-acquisition changes in the investor's share of net assets of the investee. The consolidated statement of profit and loss reflects the investor's share of the results of operations of the investee. Calculation of goodwill/ capital reserve as well as post-acquisition changes has been made based on available information. Comprehensive information was not available.

c. Use of Estimates:

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which such changes are made.

d. Property, plant and equipment

Property, plant and equipment (Tangible and Intangible) are stated at cost less accumulated depreciation. Cost comprises the purchase price and any cost attributable to bringing the asset to the location and condition necessary for its intended use. The Company carried out fair valuation of Freehold land, buildings and plant and machinery (PPE). However, it was determined that fair value does not differ materially from the carrying value of assets. Accordingly, the Company has not revalued the PPE as at March 31, 2025.

Capital work in progress is stated at cost.

In case of revaluation, surplus is recorded in OCI and credited to the asset revaluation reserve in equity. However, to the extent that it reverses a revaluation deficit of the same asset previously recognised in statement of profit or loss, the increase is recognised in statement of profit and loss. A revaluation deficit is recognised in the statement of profit and loss, except to the extent that it offsets an existing surplus on the same asset recognised in the asset revaluation reserve.

An annual transfer from the asset revaluation reserve to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Upon disposal, any revaluation reserve relating to the particular asset being sold is transferred directly to retained earnings.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Category	Useful life
Buildings	5-60 Years
Plant and Equipment's	5-40 Years
Furniture and Fixtures	1-10 Years
Vehicles	7-8 Years
Office Equipment's	1-10 Years

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

e. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

f. Depreciation & Amortization:

Depreciation on PPE bought/sold during the year is charged on straight line method as per the useful life in Schedule II of Companies Act, 2013 depending upon the financial year in which the assets are installed/sold.

With respect to the plant and machinery generating renewable energy, the useful life of the asset is determined in accordance with KER/CERC guidelines.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern.

g. Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on first in, first out basis.

Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition, cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

h. Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments. Current investments are carried at lower of cost or fair value / market value determined on an individual investment basis. Non-current investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments. Profit/loss on sale of investments is computed with reference to their average cost.

i. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

j. Foreign currency transactions

Functional Currency : The functional currency of the Company is the Indian rupee. These financial statements presented in Indian rupees (rounded off to millions, one million equals ten lakhs).

Initial Recognition : Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion : Foreign currency monetary items are reported using the closing rate at the date of the Balance Sheet. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction and investments in foreign companies are recorded at the exchange rates prevailing on the date of making the investments.

Exchange Differences : Exchange differences arising on the settlement of monetary items or on reporting company's monetary items at rates different from those

at which they were initially recorded during the period or reported in previous financial statements, are recognized as income or as expenses in the period in which they arise.

Translation of financial statements of foreign subsidiaries:

The consolidated financial statements are presented in Indian Rupees, which is the functional currency of the parent company, being the currency of the primary economic environment in which it operates.

In the consolidated financial statements, the separate financial statements of the subsidiary, originally presented in a currency different from the Group's presentation currency, have been converted into Indian Rupees. Assets and liabilities have been translated into Indian Rupees at the closing rate at the balance sheet date. Income and expenses have been converted into the Group's presentation currency at the average rates over the reporting period. The resulting translation adjustments are recorded under the foreign currency translation reserve in Reserves & Surplus under Shareholders funds.

The functional currency of subsidiary Renuka Energy Resource Holdings, FZE is UAE Dirham ('AED')

k. Revenue recognition

Ind AS 115 supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

Ind AS 115 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Company adopted Ind AS 115 using the modified retrospective method of adoption with the date of initial application of 1 April 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Company elected to apply the standard to all contracts as at 1 April 2018.

The cumulative effect of initially applying Ind AS 115 is recognized at the date of initial application as an adjustment to the opening balance of retained earnings for the year ended March 31, 2019.

I. Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense in the statement of profit and loss.

Provisions for liabilities in respect of leave encashment benefits and gratuity are made based on actuarial valuation made by an independent actuary as on the balance sheet date. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Re-measurements are not reclassified to profit or loss in subsequent periods.

m. Income Tax

Tax expenses comprise both current and deferred taxes.

The current tax is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss due to the effect of items of income or expense that are taxable or deductible in other years and items that are not taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity.

Deferred tax: Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is reasonably certain that taxable profits will be available against which those deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilized. Deferred tax liabilities and assets are measured

at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

n. Provisions and Contingent liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

o. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average numbers of equity shares outstanding during the period are adjusted for events of bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

p. Impairment of assets

As at each Balance Sheet date, the carrying amount of assets is tested for impairment so as to determine the provision for impairment loss, if any, required or the reversal, if any, required of impairment loss recognized in previous periods. Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

**q. Leases**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

r. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- a. Expected to be realised or intended to be sold or consumed in normal operating cycle
- b. Held primarily for the purpose of trading, or
- c. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- a. It is expected to be settled in normal operating cycle
- b. It is held primarily for the purpose of trading, or
- c. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

- 10 Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 Leases, and other interpretations.

Transition to Ind AS 116 - Leases - effective April 1, 2019, the Company has adopted Ind AS 116, 'Leases'. Ind AS 116 introduces a single lease accounting model and requires a lessee to recognise Right-of-Use assets and lease liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The company has used the 'modified retrospective approach' from transition from previous standard -Ind AS 17, and consecutively comparatives for previous periods have been retrospectively adjusted. On transition, the company records the lease liability at the present value of future lease payments discounted using the incremental borrowing rate and has also chosen the practical expedient provided in the standard to measure the right-of-use at the same value as the lease liability. The effect of Ind AS 116 on profit for current year is not material.
